- Twitter

EMPLOYMENT HISTORY

October 2011
to present

Rogers Communications Inc., Toronto, Ontario
Senior Developer

Collaborated with developers, managers and stakeholders with the design, build and testing of website applications. Provided guidance and feedback to team members. Evaluated technologies and tools for suitability to business goals and delivery capabilities.

Selected Major Project

Sportsnet.ca, NHL Section - August 2014

Lead the Sportsnet.ca NHL web development team through a revamp of front-facing user experiences which included adopting Bootstrap. Provided proposals of development changes to management and stakeholders. Built a dynamic Wordpress theme switch plugin that allowed for multi-theme presentation based on site section.

October 2007
to October 2011

Pattison Outdoor Inc. / Fourth Wall Media Inc., Toronto, Ontario
Web Developer

Developed websites based on design, UI and data requirements. Provided knowledge and support to stakeholders. Maintained intranet, corporate websites and internal web tools.

Selected Major Project

Mini Cooper Ad Projection Campaign - January 2011

Built a specialized server that stored data received from the SMS service and communicated with the flash front-end. Also built a class that integrated with the front-end.

January 2009
to December 2011

K-Max Media, Mississauga, Ontario
Freelance Web Developer and Producer

Selected Freelance Project

Onestop Networks HTML5 Project - November 2010

An experimental HTML5 webpage mimicking the behaviors of a real Onestop Network TTC Subway Screen. The webpage played multiple assets on the screen at the same time.
